

Table B-6. Survey of Industrial Research and Development—percentage of R&D-performing companies that reported non-zero data for major survey items: 2000

Survey Item	Form RD-1 ^{1,2}	Form RD-1A ^{1,2}
Sales ³	97.4	96.9
Total employment ³	98.3	99.2
Scientist and engineers.....	75.9	86.0
Federal R&D ^{3,4}	99.9	99.8
Department of Defense.....	5.5	(NA)
NASA.....	2.6	(NA)
Department of Energy.....	1.9	(NA)
Other Federal agencies.....	6.2	(NA)
Company R&D ⁴	99.9	99.8
Contracted out R&D.....	17.3	14.1
Foreign R&D.....	30.6	7.3
Total R&D ³	100.0	100.0
Wages and salaries.....	66.1	(NA)
Materials and supplies.....	59.3	(NA)
R&D depreciation.....	41.8	(NA)
Other costs by type of expense.....	60.2	(NA)
Energy R&D	3.1	(NA)

¹ Percentages are based on reported data for companies that reported total R&D expenditures. Imputed data are not included. Companies that reported they were out-of-scope, out-of-business, merged with another company, or had no R&D expenditures for 2000 were excluded from the calculations.

² For descriptions of the survey forms, see technical notes in this section.

³ Response to four data items on the questionnaires, sales, total employment, Federal R&D, and total R&D, was mandatory. Response to all other items was voluntary.

⁴ Item response for "Federal R&D" and for "Company R&D" are considered together; companies that reported "Total R&D" and either of these expenditures implicitly reported both company and Federal R&D, since these two items sum to total R&D.

KEY: (NA) = Not available.
